Entry Requirements for Austria:

With Monday, December 20th, 2021, the entry regulations for Austria have been tightened, so entry into Austria (also for Austrian citizens) is only possible with a 2Gplus certificate (vaccinated or recovered and additional PCR test) or after a booster vaccination (3rd injection) possible. If a PCR test or booster vaccination is available, NO registration via the pre-travel clearance is necessary.

If no PCR test / booster vaccination can be proven upon entry, a 10-day quarantine must be carried out. If no PCR test can be managed abroad or no PCR test result is available when entering Austria, a PCR test option can still be used in Austria, but quarantine is required until the negative test result is available. Registration via the pre-travel clearance is necessary → <https://entry.ptc.gv.at/>

Austrian citizens, EU citizens and people who have a place of residence in Austria can enter Austria without 2G status (vaccinated / recovered), but must go into a mandatory 10-day quarantine, which is verified by a negative PCR test from the fifth day at the earliest test can be completed. Registration via the pre-travel clearance is necessary → <https://entry.ptc.gv.at/>

Non-EU citizens CANNOT enter Austria without proof of 2Gplus, and there are no exceptions for professional reasons / top athletes.

We would like to mention, that the Entry Requirements for Austria will not be controlled by the LOC and are up to every single competitor / staff.
